

Boone County Schools are one of nine in Kentucky to join 530 other districts nationwide and in Canada on the third annual Advanced Placement® (AP) District Honor Roll.

Districts are honored for simultaneously increasing access to AP® course work while increasing the percentage of students earning scores of 3 or higher on AP exams. Achieving both of these goals is the ideal scenario for our AP program because it indicates that we are successfully identifying motivated, academically prepared students who are likely to benefit most from rigorous AP course work.

More than 90 percent of colleges and universities across the U.S. offer college credit, advanced placement or both for a score of 3 or higher on an AP exam which can potentially save students and their families thousands of dollars in college tuition.

Taking AP courses demonstrates to college admission officers that students have sought the most rigorous curriculum available to them, and research indicates that students who score a 3 or higher on an AP exam typically experience greater academic success in college and are more likely to earn a college degree than non-AP students.
