

AP Music Theory
Summer Assignment
2022-23

The purpose of this assignment is to introduce or reinforce the basic skills necessary to be successful in AP Music Theory. It is my expectation that students should be able to exhibit mastery in the skills and concepts covered in this assignment on the first day of class. These are skills that will be utilized everyday in class and are the foundation for what you will learn throughout the course. It is imperative that you have a firm grasp on these concepts before beginning the course. Portions of this assignment will be submitted on paper and other portions will be submitted digitally. Keep track of this packet and make a google doc titled “APMT Summer Assignment Exercises” where you will upload photos of your scores from digital activities. This assignment will be **due** on the first day of class, **Thursday, August 18, 2022** and will be your first grade for the course.

A. Keyboard Geography

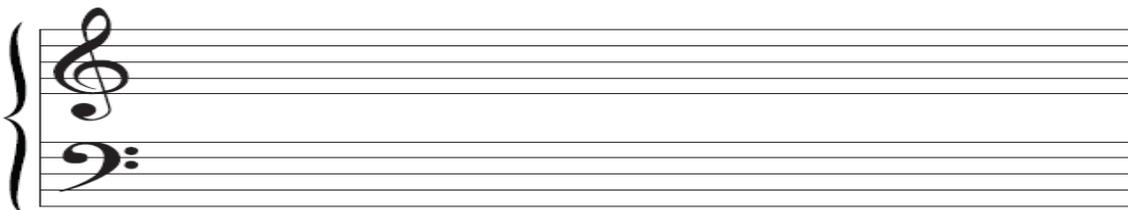

1. Watch this video <https://www.youtube.com/watch?v=yXiyNQyri2g>
2. Fill out the piano below with all of the note names for white and black keys.
